# City Water Solutions

*Sodium Free Option • Non-Electric*

- **Extends life of plumbing & fixtures**

- Saves 50% of all soap products
- Extends the life of appliances
- Saves energy heating water
- Less time and money spent cleaning your home

## Chlorine In Your Water

In many areas, chlorine must be added to water supplies in order to ensure its quality and safety. Although chlorine is necessary when storing or delivering water to your home, chlorinated water used in the home often presents problems such as:

- Bad smelling water
- Dry skin and hair
- Damage to plastic and rubber parts in water using appliances, toilets and fixtures
- Poor-tasting water
- Faded clothing

# Kinetico K5 Drinking Water Station

## Reverse Osmosis Technology

- High pressure/high volume
- Conserves water, lower operation costs
- Certified to remove bacteria & viruses

- Cartridge Options (8)
  - ✓ Mineral Plus
  - ✓ Bacteria Virus
  - ✓ Arsenic
  - ✓ Plus Many More

Water quality in both wells and city water can change daily. Ensure your family is always drinking safe, great tasting water by installing a drinking water system in your home. Enjoy bottled water quality on tap for only pennies a day.
